

## Childhood Immunisation Coverage

The following tables provide the latest annualised quarterly report on childhood immunisation coverage for the **December 2016, March 2017, June 2017 and September 2017 assessment quarters** from the Australian Immunisation Register (AIR).

The data show the proportion of children fully immunised at age 12 months, 24 months and 60 months according to the Australian Standard Vaccination Schedule. A full description of the methodology used can be found in *Communicable Diseases Intelligence* 1998;22(3), 36-37.
